PROFILE

Computer Science B.Tech student with hands-on experience building full-stack web applications using React, Next.js, FastAPI, and PostgreSQL. Proficient in JavaScript, Python, component-based frontend architecture, RESTful API development, and relational database design. Currently expanding expertise in artificial intelligence and machine learning concepts. Passionate about applying emerging technologies to develop scalable, performant, and data-driven web solutions. Seeking opportunities to contribute to innovative software engineering projects and grow as a full-stack developer.

EDUCATION

Cochin University College of Engineering, Kuttanad Sept 2023 – 2027
Bachelor of Technology in Computer Science & Engineering, CUSAT

WORK EXPERIENCE

Frontend Intern Jan 2026 – Present
MuLearn Foundation

- Contributed to 2+ full-stack web development projects using React and Next.js, improving UI consistency across 10+ reusable components and reducing cross-page style inconsistencies by 40%.

Frontend Intern Oct 2025 – Jan 2026
OSINT JOURNO

- Built and deployed 3+ Next.js projects including a fully functional blog platform, reducing page load time by 30% through server-side rendering and optimized component architecture.

Software Testing Intern Jun 2025 – Jul 2025
PetroInfotech

- Executed 100+ end-to-end test cases using Cypress framework, achieving 95% test coverage and reducing post-release bug reports by 25% through systematic QA processes.

AI Program Intern Jun 2025 – Jul 2025
CSRBOX in collaboration with IBM (Virtual)

- Contributed to WildGuard, an AI-based wildlife protection system applying machine learning for human-animal conflict detection across 10+ monitored zones (UN SDG-15).

Intern May 2024 – Jul 2024
CSRBOX in collaboration with IBM (Virtual)

- Developed and deployed an AI chatbot using IBM Watson X, handling 500+ user queries and reaching 200+ users to raise Clean Water and Sanitation awareness (UN SDG-6).

ACHIEVEMENTS

HACKP Hackathon – Kerala Police Cyberdome 2025

- Finalist among 30 selected participants in a cybersecurity-focused national hackathon with a highly competitive applicant pool.
- Delivered 2 fully functional full-stack projects within the hackathon timeline, demonstrating rapid prototyping and end-to-end problem-solving skills.

PROJECTS

TrackVision – Suspect Tracking System View GitHub

- Engineered a full-stack web application for law enforcement enabling upload of suspect images against live video feeds, automating identity matching across 100+ frames per video with 90%+ match precision.
- Designed a real-time action analysis pipeline that tracks and correlates suspect behavior across 5+ timeline segments, reducing manual review time by 60% for investigating officers.

WildGuard – AI Wildlife Detection System View GitHub

- Developed an AI agent for real-time animal detection and automated alert system serving forest officers and locals across 10+ PIN code zones.
- Implemented wildlife monitoring pipeline using machine learning algorithms, achieving 95%+ detection accuracy and reducing manual patrol dependency by 40%.

Take-it-down and Trace-an-Object

[View GitHub](#) | [View GitHub](#)

- Built a privacy-first intelligence platform generating perceptual hashes (PhotoDNA) directly on users' devices, processing images client-side across 3+ supported formats while keeping original content fully private.
- Developed a digital crime scene investigation system enabling officers to correlate 50+ evidence items efficiently, cutting manual cross-referencing effort by 35%.

AI Chatbot for Water Conservation

Jul 2024

- Built an AI-powered conversational chatbot using IBM Watson X, serving 200+ users across 3+ awareness modules focused on Clean Water and Sanitation (UN SDG-6).

SKILLS

Programming: JavaScript, Java, Python, HTML, CSS, SQL

Frontend: ReactJS, Next.js, TailwindCSS, shadcn/ui, Zustand, TanStack Query, React Hook Form

Backend: Node.js, Express.js, FastAPI, RESTful API Development

Databases: MongoDB, PostgreSQL

Tools: Cypress, Git, GitHub, IBM Watson X

CERTIFICATIONS

Software Test Intern – Petroinfotech | AI Fundamentals – IBM | Project Management – IBM | AI/ML Certification – CSR Box (IBM Partner) | HACKP Hackathon Participation Certificate – Kerala Police Cyberdome
